

License

The usage of "LTboot SDK" (Software Development Package) given by Mauro Laurenti (the Author) imply the acceptance of the following license:

- The Software must not be used before reading the documentation.

The binary code within the SDK can be redistributed respecting the following points:

- The official documentation must be distributed with the Software.
- LTboot SDK cannot be used for developing and testing military equipment.
- LTboot SDK can be used for commercial and non commercial applications.
- The license associated with it must be preserved.

"LTboot SDK" is made of different components:

- GUI (Graphical User Interface)
- Dynamic libraries (xxx.dll) to support the GUI
- LTboot Firmware xxx.hex file (compiled for different MCU)

The dynamic libraries can be used and distributed only with LTboot SDK and cannot be integrated and linked within other projects without a written agreement given by the Author.
